

BE A FOSTER SAVE A LIFE

For Animals, Inc.'s foster program provides temporary housing and care for cats and kittens who are not quite ready for adoption. We need loving homes like yours to continue helping these animals who need a little extra TLC before going to a #foreverhome

Foster Volunteers FAQs

What kinds of animals need care?

- * Kittens under 2 months old.
- * Mom cats with nursing kittens.
- * Cats with medical conditions or injuries.
- * Special needs cats.
- * Shelter cats who need more room to run around and play.

What support/training will I receive?

- * We will send you informative guides and direct you to online resources.
- * We have a foster Facebook group.
- * You will have contact information to reach a human.

How long do animals stay in foster care?

- * On average, kittens spend 4+ weeks in a foster. Longer if required.
- * The time for each animal varies depending on their needs.
- * We discuss each case with potential fosters to make sure it is a good fit.
- * The time is also dependent on getting a good adopter.

What expenses are involved?

- * Fosters provide housing, socialization and lots of love!
- * We provide a starter kit of supplies as well as medical care.
- * It helps if you can provide ongoing food, but we can supply if necessary.

Can I foster if I have pets of my own?

- * Yes! We welcome pet parents as fosters.
- * The risk to your own pets is minimal if they are vaccinated and in good health.
